

Corporate Press Release

1st September 2010

## **NORGINE APPOINTS ROSEMARIE CORRIGAN AS DIRECTOR OF GLOBAL QUALITY**

Norgine is delighted to announce the appointment of **Rosemarie Corrigan** as Director of Global Quality, with effect from 1st September 2010. A highly experienced International Quality leader within the pharmaceutical sector, Rosemarie brings extensive experience of managing change across all areas of global quality assurance. She has managed a diverse range of teams across the globe, including in Asia, Europe, Latin America and the US.

Rosemarie will be an indispensable member of Norgine's Global Quality team, taking a leadership role across Development QA & Compliance, Corporate Quality and Manufacturing, and Supply Quality.

She has extensive knowledge of global GxP, validation requirements and operation, as well as considerable strategic and operational QA experience. In former roles at Stiefel, Quintiles and Innovex, Rosemarie successfully led the development and implementation of new international quality strategies.

**ENDS**

**Notes to editor:**

Norgine is an independent, successful European specialty pharmaceutical company that has been established for over 100 years and has a presence in all major European markets. In 2009, Norgine's net product sales were £253 million, the 23rd year of double-digit growth at constant exchange rates. The company employs over 1,200 people.

Norgine's focus is the development and marketing of pharmaceutical products that address significant unmet clinical needs in areas such as gastroenterology, hepatology and pain management. The company currently markets a range of products in various markets in its key therapeutic areas e.g. MOVICOL for the treatment of constipation and faecal impaction, MOVIPREP a new generation of bowel cleansing preparation, KLEAN-PREP® for bowel preparation prior to colonoscopy, XIFAXAN® for the treatment of travellers diarrhoea and ORAMORPH® for the treatment of moderate to severe pain associated with cancer.

Norgine is active in research and development and currently has products in various stages of clinical development. Norgine manufactures most of its own products in Hengoed, Wales and Dreux in France. [www.norgine.com](http://www.norgine.com)
